

MAHDI M. AYYAD

LARAVEL BACKEND DEVELOPER

CONTACT

- +962 795570175
- mahdiyyad97@gmail.com
- Amman, Jordan

TECH. SKILLS

- Backend:** PHP, Laravel, RESTful APIs, MVC Architecture, Eloquent ORM
- Databases:** MySQL, Redis
- Frontend:** HTML, CSS, JavaScript, Laravel Blade
- Architecture:** Microservices, Scalable Systems, SaaS Platforms
- Laravel Features:** Passport, Queues, Events & Listeners, Policies (Authorization), Caching
- Tools:** Git, GitHub, CI/CD Pipelines, Postman
- Integrations:** Stripe, Google Drive API, One Drive API, OpenKM Rest API, Firebase Notifications

PROFILE

Laravel Backend Developer with 4+ years of experience building scalable SaaS applications and RESTful APIs using PHP and Laravel. Strong expertise in SQL databases, Redis caching, and scalable backend architecture. Experienced in designing efficient systems, optimizing performance, and implementing secure, maintainable solutions in production environments.

WORK EXPERIENCE

Laravel Backend Developer — Qistas

MAY 2023 - PRESENT

- Designed and built scalable SaaS backend systems using Laravel for workflow and document management.
- Developed and maintained RESTful APIs for internal services and external integrations.
- Integrated queue-based processing to handle asynchronous tasks and improve system responsiveness.
- Applied Redis caching strategies to enhance performance and reduce database load.
- Implemented event-driven workflows using Laravel Events and Listeners.
- Enforced access control using Laravel Policies for secure authorization.
- Optimized SQL queries in MySQL for efficient data processing.
- Contributed to CI/CD pipelines using GitHub to streamline deployment processes.
- Collaborated with cross-functional teams to deliver reliable and maintainable backend solutions.

Backend Developer (PHP/Laravel) — NCIT Solutions

MAR 2022 - APR 2023

- Built and maintained backend systems using Laravel with a focus on scalability and clean architecture.
- Designed RESTful APIs to support web application functionality.
- Structured and optimized SQL databases to ensure efficient data handling.
- Integrated third-party services and external APIs.
- Improved application performance through caching and query optimization.
- Maintained code quality using Git-based version control and team workflows.

EDUCATION

Bachelor of Computer Science
Al-Ahliyya Amman University

2018 - 2022
